

# Safety Data Sheet

Methanol

**CAROLINA**<sup>®</sup>  
www.carolina.com

## Section 1

## Product Description

**Product Name:** Methanol  
**Recommended Use:** Science education applications  
**Synonyms:** Carbinol; , Methyl Alcohol; , Wood Alcohol  
**Distributor:** Carolina Biological Supply Company  
2700 York Road, Burlington, NC 27215  
1-800-227-1150  
**Chemical Information:** 800-227-1150 (8am-5pm (ET) M-F)  
**Chemtrec:** 800-424-9300 (Transportation Spill Response 24 hours)

## Section 2

## Hazard Identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

**DANGER**

Highly flammable liquid and vapor. Toxic if swallowed, in contact with skin or if inhaled. Causes damage to organs.

### GHS Classification:

Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 1, Flammable Liquid Category 2, Acute Toxicity - Inhalation Dust / Mist Category 3, Acute Toxicity - Inhalation Vapor Category 3, Acute Toxicity - Inhalation Gas Category 3, Acute Toxicity - Dermal Category 3, Acute Toxicity - Oral Category 3

**Other Safety Precautions:** IF exposed: Call a POISON CENTER or doctor/physician.

## Section 3

## Composition / Information on Ingredients

| <u>Chemical Name</u> | <u>CAS #</u> | <u>%</u> |
|----------------------|--------------|----------|
| Methanol             | 67-56-1      | 100      |

## Section 4

## First Aid Measures

### Emergency and First Aid Procedures

**Inhalation:** IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
**Eyes:** In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.  
**Skin Contact:** IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse.  
**Ingestion:** IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

## Section 5

## Firefighting Procedures

**Extinguishing Media:** Use dry chemical, CO2 or appropriate foam.  
**Fire Fighting Methods and Protection:** Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.  
**Fire and/or Explosion Hazards:** Vapors may travel back to ignition source. Closed Containers exposed to heat may explode.  
**Hazardous Combustion Products:** Carbon dioxide, Carbon monoxide

## Section 6

## Spill or Leak Procedures

# Safety Data Sheet

## Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be severely irritating or toxic. Follow personal protective equipment recommendations found in Section 8 of this SDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure limits.

Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation. Shut off ignition sources; including electrical equipment and flames. Do not allow smoking in the area.

## Section 7

## Handling and Storage

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Handling:</b>     | Keep away from heat/sparks/open flames/hot surfaces. – No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/.../equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. |
| <b>Storage:</b>      | Keep container tightly closed. Store in a well-ventilated place. Keep container tightly closed. Store in a well-ventilated place. Keep cool. Store locked up. Keep container tightly closed in a cool, well-ventilated place.                                                                                                                                                                                                                                                                                                                                         |
| <b>Storage Code:</b> | Red - Flammables. Store in approved flammable containers. Store away from oxidizing materials.                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Section 8

## Protection Information

| <u>Chemical Name</u> | <u>ACGIH</u>             | <u>OSHA PEL</u>                |
|----------------------|--------------------------|--------------------------------|
|                      | (TWA) (STEL)             | (TWA) (STEL)                   |
| Methanol             | 200 ppm TWA 250 ppm STEL | 200 ppm TWA; 260 mg/m3 TWA N/A |

### Control Parameters

|                                             |                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Engineering Measures:</b>                | Local exhaust ventilation or other engineering controls are normally required when handling or using this product to avoid overexposure.                                                                                                                                                                                                                           |
| <b>Personal Protective Equipment (PPE):</b> | Lab coat, apron, eye wash, safety shower.                                                                                                                                                                                                                                                                                                                          |
| <b>Respiratory Protection:</b>              | Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. NIOSH approved air purifying respirator with organic vapor cartridge and HEPA filter.       |
| <b>Respirator Type(s):</b>                  | Wear chemical splash goggles when handling this product. Have an eye wash station available.                                                                                                                                                                                                                                                                       |
| <b>Eye Protection:</b>                      | Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. |
| <b>Skin Protection:</b>                     |                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Gloves:</b>                              | Nitrile, Polyvinyl chloride                                                                                                                                                                                                                                                                                                                                        |

## Section 9

## Physical Data

|                                         |                                                     |
|-----------------------------------------|-----------------------------------------------------|
| <b>Formula:</b> CH <sub>3</sub> OH      | <b>Vapor Pressure:</b> 127 mm Hg @ 25°C             |
| <b>Molecular Weight:</b> 32.04          | <b>Evaporation Rate (BuAc=1):</b> 2.1               |
| <b>Appearance:</b> Colorless Liquid     | <b>Vapor Density (Air=1):</b> 1.1                   |
| <b>Odor:</b> Moderate Alcohol Odor      | <b>Specific Gravity:</b> 0.791 - 0.792 @ 20°C       |
| <b>Odor Threshold:</b> 1.2 ppm          | <b>Solubility in Water:</b> Soluble                 |
| <b>pH:</b> No data available            | <b>Log Pow (calculated):</b> -0.77                  |
| <b>Melting Point:</b> -98 C             | <b>Autoignition Temperature:</b> 464 C              |
| <b>Boiling Point:</b> 65 C              | <b>Decomposition Temperature:</b> No data available |
| <b>Flash Point:</b> 11 C                | <b>Viscosity:</b> No data available                 |

| <b>Chemical Name</b>    | <b>CAS Number</b> | <b>IARC</b> | <b>NTP</b> | <b>OSHA</b> |
| Methanol                | 67-56-1           | Not listed  | Not listed | Not listed  |

|                              |                                                  |
|------------------------------|--------------------------------------------------|
| <b>Chronic Effects:</b>      |                                                  |
| <b>Mutagenicity:</b>         | No evidence of a mutagenic effect.               |
| <b>Teratogenicity:</b>       | Evidence of a teratogenic effect (birth defect). |
| <b>Sensitization:</b>        | No evidence of a sensitization effect.           |
| <b>Reproductive:</b>         | Evidence of negative reproductive effects.       |
| <b>Target Organ Effects:</b> |                                                  |
| <b>Acute:</b>                | Eyes                                             |
| <b>Chronic:</b>              | Eyes                                             |

## Section 12 Ecological Data

|                               |                                                                                                      |
|-------------------------------|------------------------------------------------------------------------------------------------------|
| <b>Overview:</b>              | This material is not expected to be harmful to the ecology.                                          |
| <b>Mobility:</b>              | This material is expected to have very high mobility in soil. It does not absorb to most soil types. |
| <b>Persistence:</b>           | Biodegradation                                                                                       |
| <b>Bioaccumulation:</b>       | Bioconcentration is not expected to occur.                                                           |
| <b>Degradability:</b>         | Biodegrades quickly.                                                                                 |
| <b>Other Adverse Effects:</b> | No data                                                                                              |

|                      |                   |                                                    |
|----------------------|-------------------|----------------------------------------------------|
| <b>Chemical Name</b> | <b>CAS Number</b> | <b>Eco Toxicity</b>                                |
| Methanol             | 67-56-1           | 96 HR LC50 PIMEPHALES PROMELAS > 100 MG/L [STATIC] |

## Section 13 Disposal Information

|                                |                                                                                                                                                       |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal Methods:</b>       | Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance. |
| <b>Waste Disposal Code(s):</b> | U154 - Methanol                                                                                                                                       |

## Section 14 Transport Information

|                                           |                                         |
|-------------------------------------------|-----------------------------------------|
| <b>Ground - DOT Proper Shipping Name:</b> | <b>Air - IATA Proper Shipping Name:</b> |
| UN1230                                    | UN1230                                  |
| Methanol                                  | Methanol                                |
| Class 3                                   | Class 3 (div. 6.1)                      |
| P.G. II                                   | P.G. II                                 |

# Safety Data Sheet

## Section 15

## Regulatory Information

### TSCA Status:

All components in this product are on the TSCA Inventory.

### Chemical Name

### CAS Number

### § 313 Name

### § 304 RQ

### CERCLA RQ

### § 302 TPQ

### CAA 112(2) TQ

Methanol

67-56-1

Methanol

No

5000 lb final  
RQ; 2270 kg  
final RQ

No

No

### California Prop 65:

WARNING: Reproductive Harm –  
[www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Section 16

## Additional Information

Revised: 08/21/2018

Replaces: 06/15/2018

Printed: 08-24-2018

The information provided in this (Material) Safety Data Sheet represents a compilation of data drawn directly from various sources available to us. Carolina Biological Supply makes no representation or guarantee as to the suitability of this information to a particular application of the substance covered in the (Material) Safety Data Sheet.
